Beau Mischief came to our herd in 1909 as a shy breeder. We gave him several months rest, then worked him up until he gave us good service. We contend Anxiety 4th gave the present day Herefords their rear quarters, and extreme fleshing qualities; then Beau Mischief came along and put the spring of rib and thickness on his get, and above all—he put breed character in his get that breeds on.

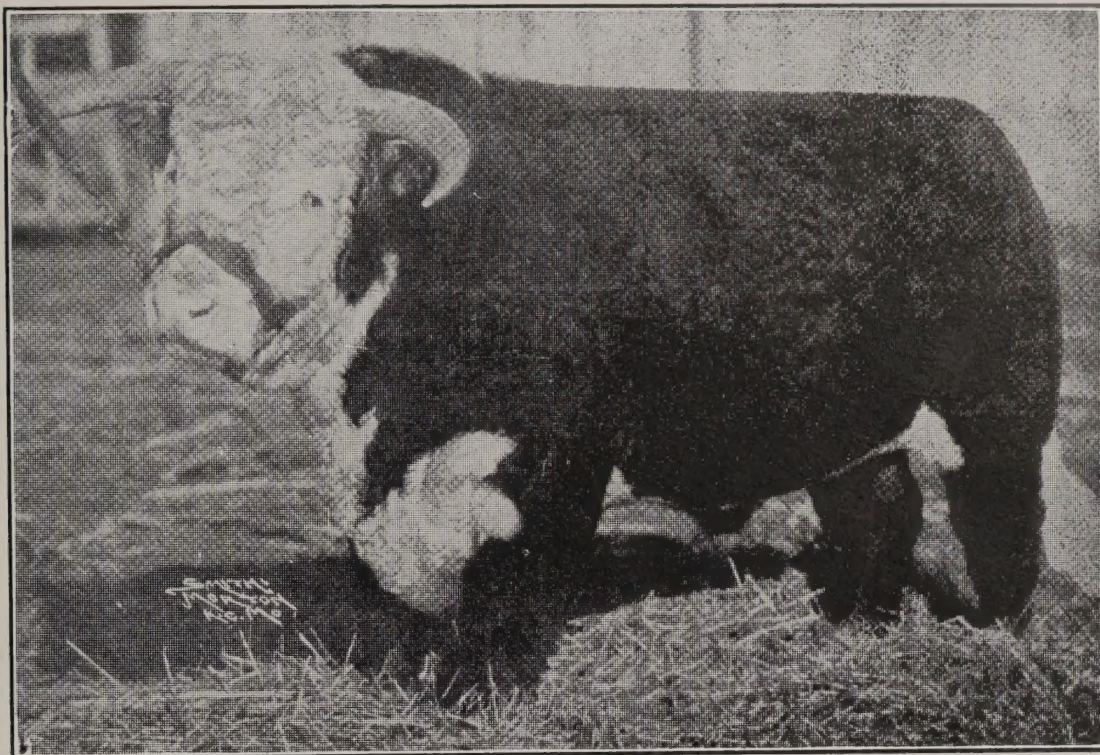

PRINCE DOMINO MISCHIEF 1003879

TWO LAND-MARK SIRES

Their Influence Has Made Good Cattle Better

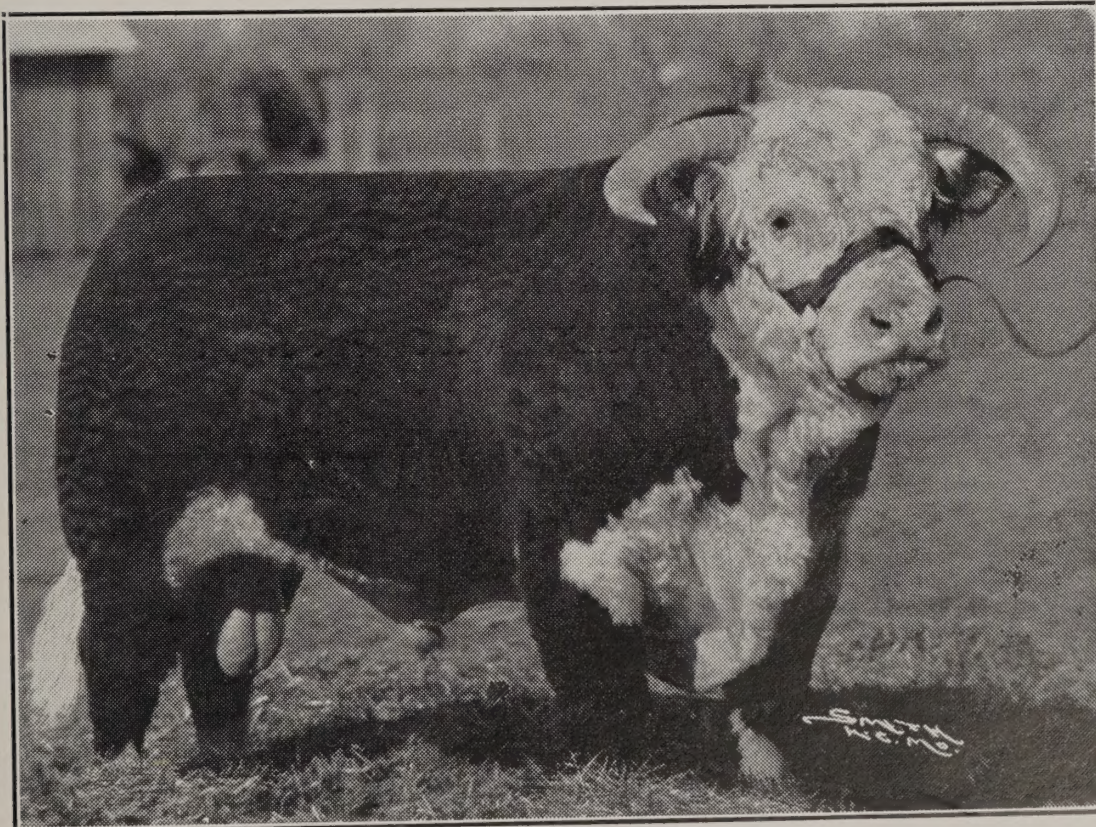

ADVANCE MISCHIEF 1323063

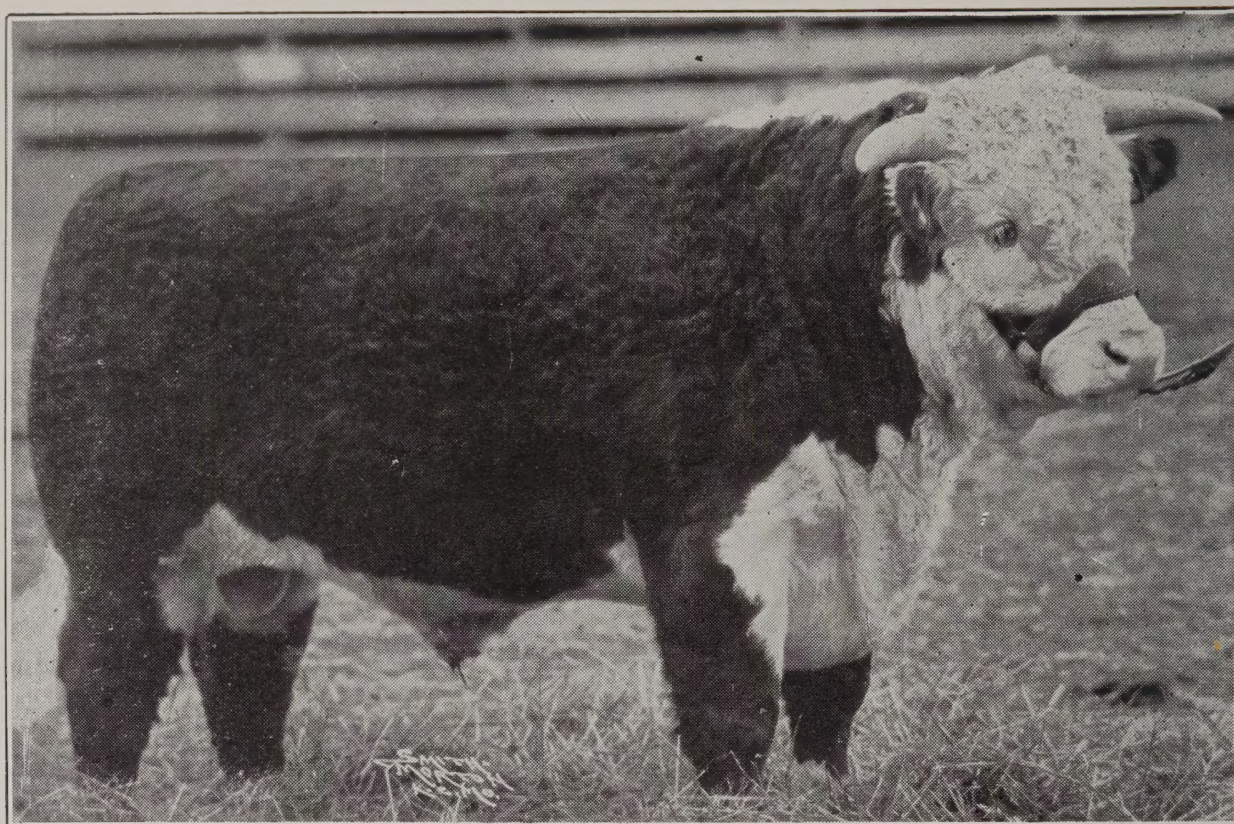

ADVANCE DOMINO 1381854

This great sire is still in service at the Mousel Bros. Ranch.
Pedigree on Page 14.

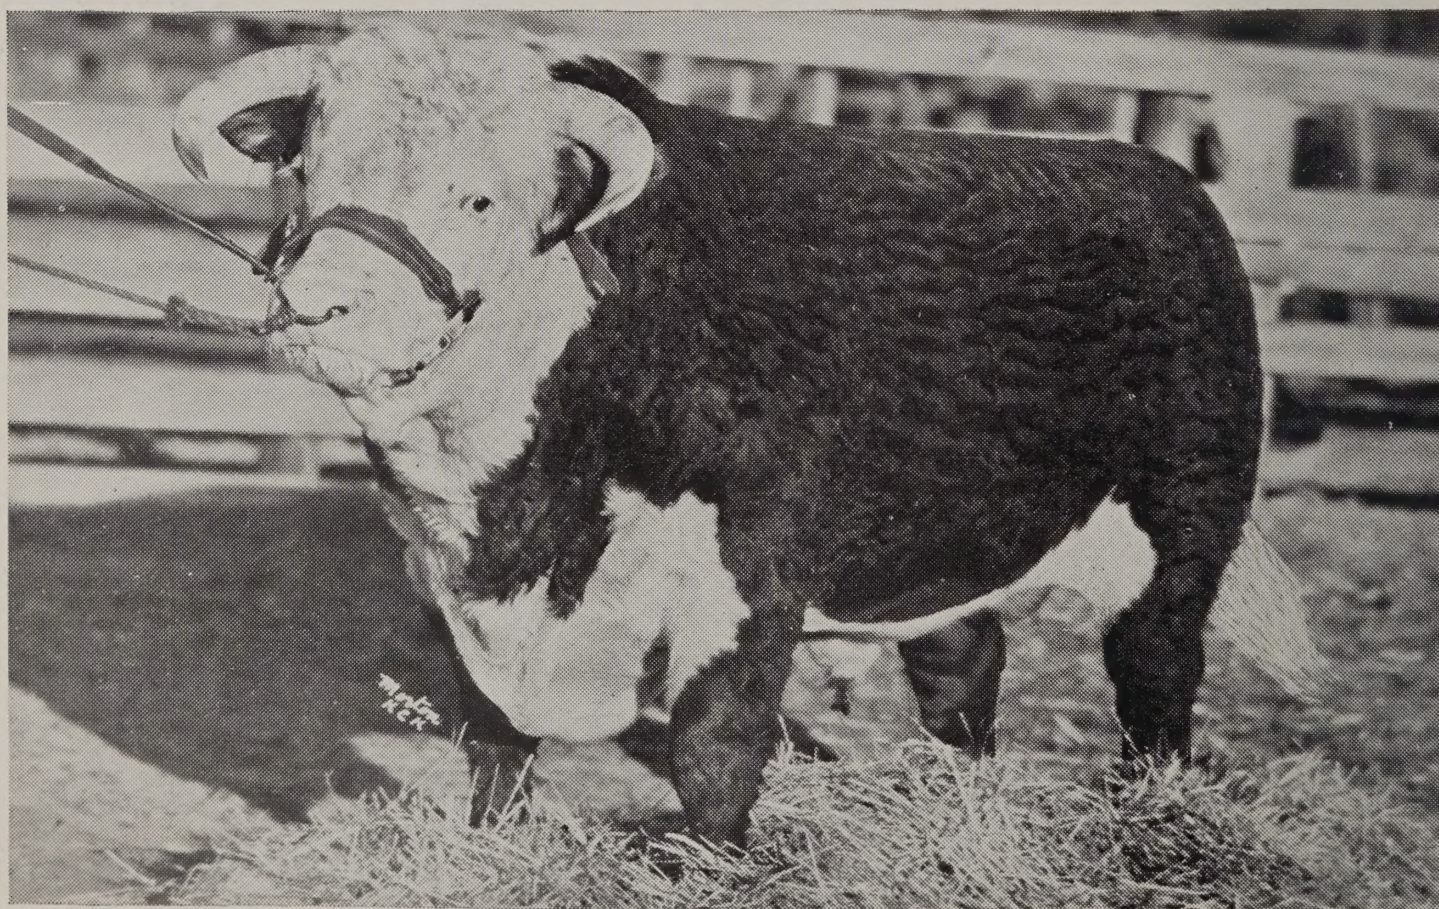

MOUSEL DOMINO 1695527

Bred by Mousel Bros., and now in service in the John Stribling
Herd. Pedigree on Page 15.

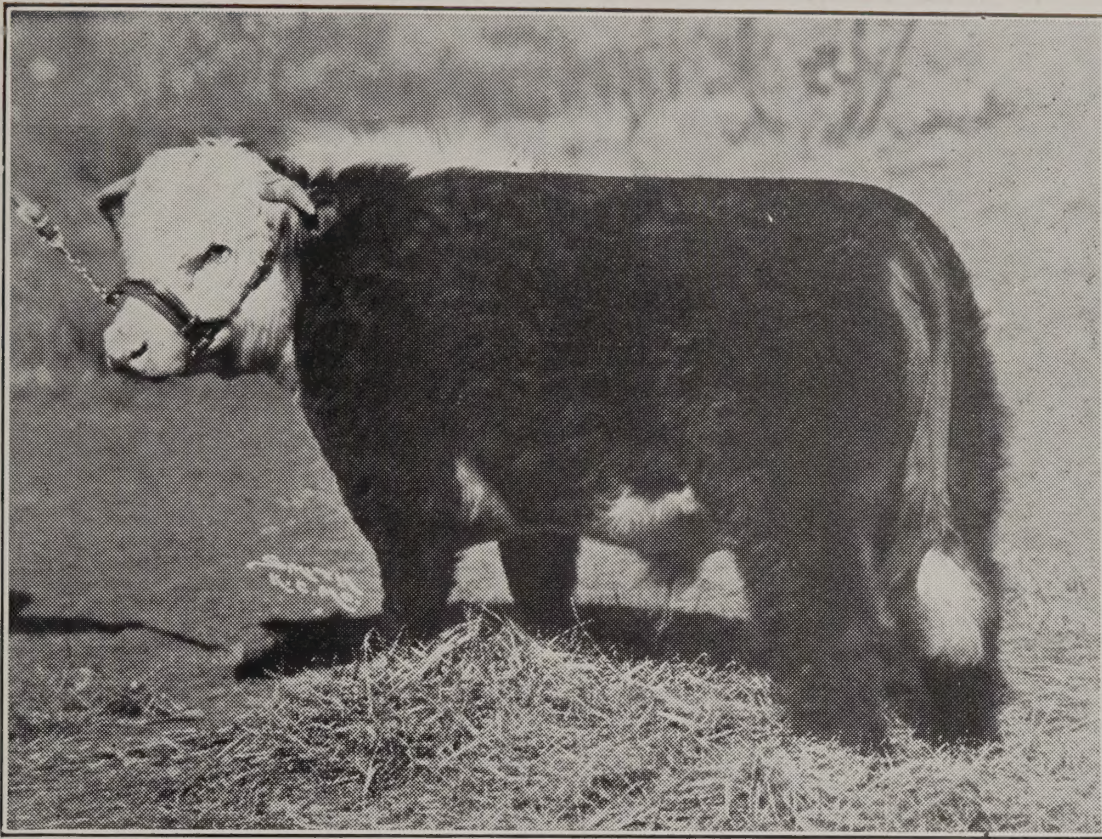

ADVANCE PRINCE DOMINO 1795509

Sired many of the cattle in this offering; now in service in the Jack Frost Herd, Blackwell, Texas. Pedigree on Page 16.

THE LAMPLIGHTER 2020166

Sired many of the top cattle in our herd today. Pedigree on Page 17.

JR. ADVANCE DOMINO 2230000

Owned jointly by Mousel Bros., Cambridge, and C. A. Iverson, Ames, Iowa. Pedigree on Page 18.

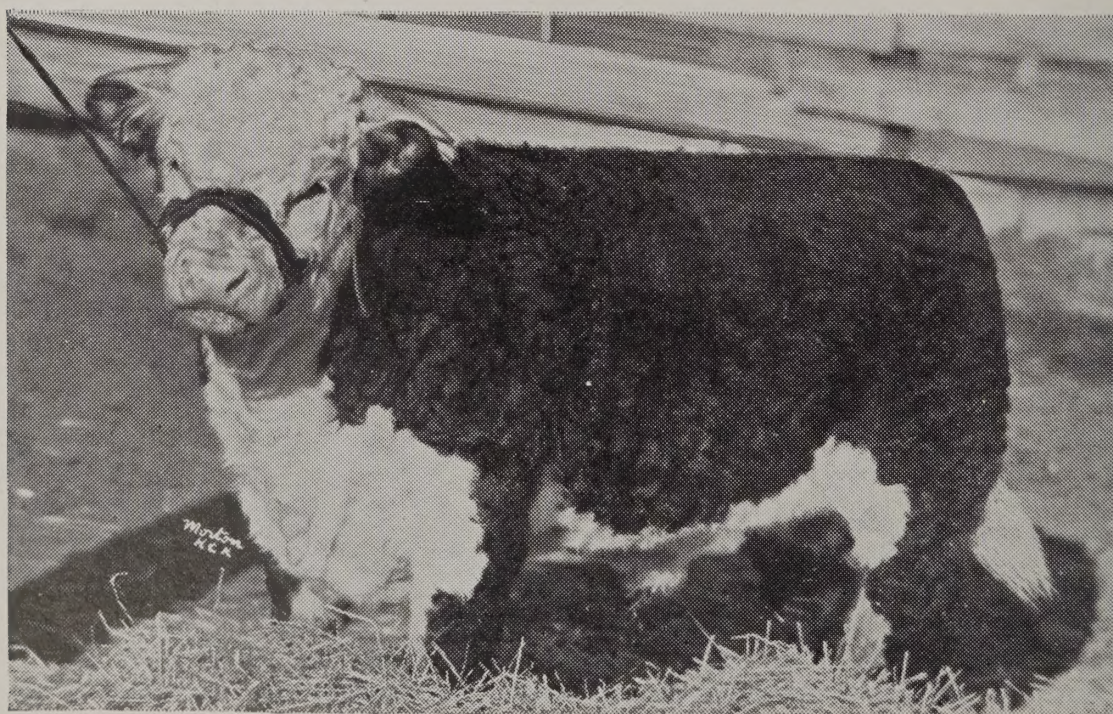

ADVANCE MIXTURE 2273207

One of our young herd bulls that is siring a most uniform high-class lot of calves today. Pedigree on Page 19.

SUPREME ADVANCE DOMINO 2418775

Bred by Mousel Bros., and sold to John Stribling. Sold in Stribling sale to Jack Frost for \$6,000. Pedigree on Page 20.

MOUSEL MIXTURE 2714631

A young bull we are reserving for use in our herd. Pedigree on Page 21.

PRINCE DOMINO 499611

Whose descendants are in great demand today.

SUPREME PRESIDENT 2665314

This good young bull is being reserved in our herd. Pedigree on
Page 23.

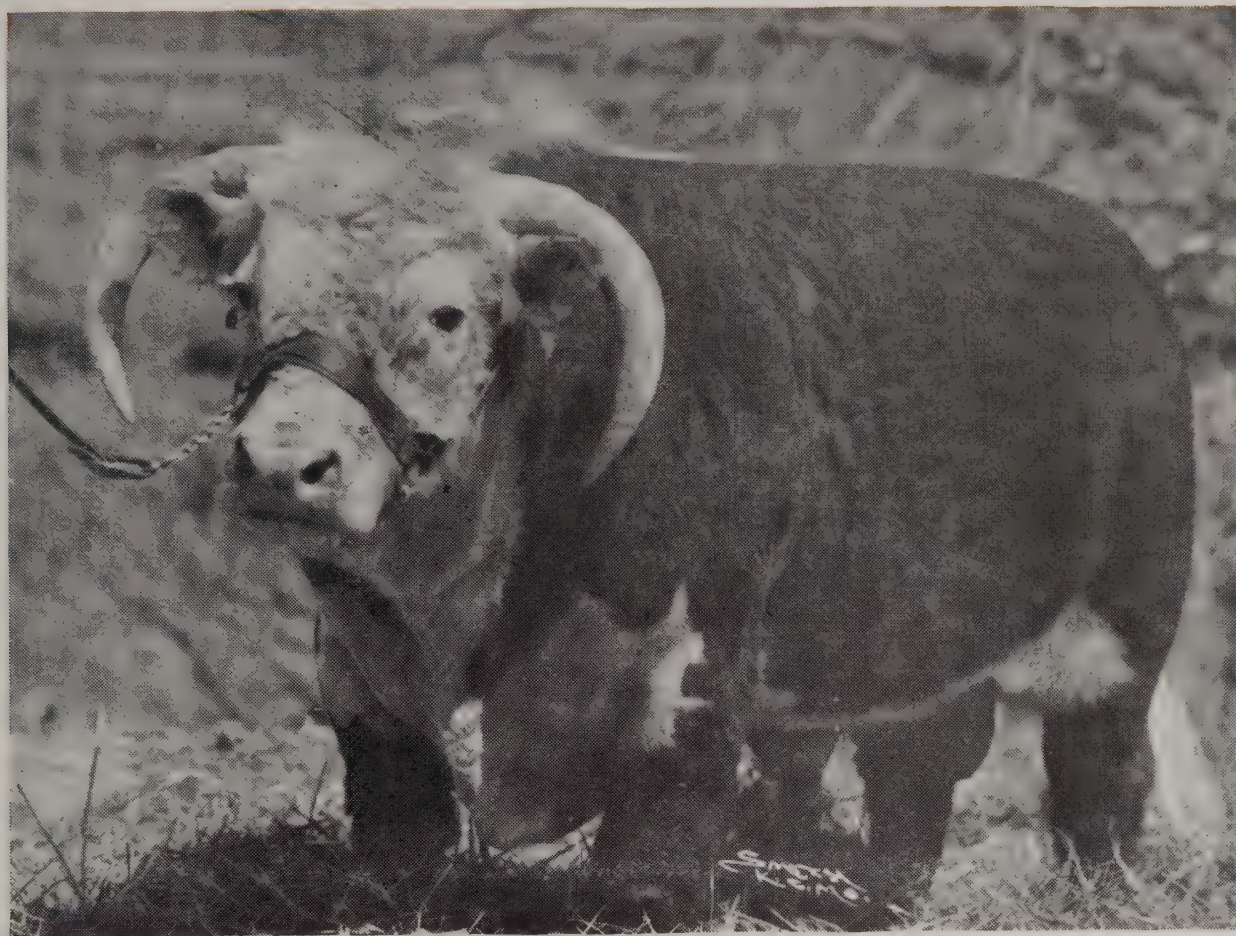

MASTER MIXTURE 2714636

A reserve herd bull prospect. Pedigree on Page 24.

IMPERIAL LAMPLIGHTER 2730301

Another reserve herd bull prospect. Pedigree on Page 28.

Again the Advance Mischief—Advance Domino combination shows up well. If you like a compact bull with a lot of thickness, short wide head and bull character to spare and a bull that fills the eye, whether posing or grazing, then we feel this bull will not disappoint. Advance Mischief 78th was sold in our 1932 sale and was recently purchased by C. K. MouseL, Edison, Nebr.

FORMER HERD BULL

FOR REFERENCE ONLY

PRINCE DOMINO MISCHIEF 1003879

Calved December 2, 1920. Bred by Mousel Bros., Cambridge, Neb.

A splendid example of the Mousel system of breeding. A mighty breeder, by right of inheritance; and as an individual few, if any have equaled him.

ADVANCE MISCHIEF 1323063

Calved January 12, 1924. Bred by Paul Mousel.

Supreme Advance Domino, one of the coming sires of the breed, purchased from the Mousel Ranch by John Stribling, Rotan, Texas in 1936, and sold in the Stribling sale in 1937 to Jack Frost, Blackwell, Texas for \$6000.00, and is now doing service in his herd. He was the top selling individual in the Stribling sale.

Presented here is an abstract of the ancestors behind Mousel Mixture. Study it closely and you will recall what these animals have done in their time. We consider his sire, Advance Mixture as highly as any sire we have ever possessed. Many breeders consider his dam the top cow in our herd. Aside from having approved ancestors this bull in animal form qualifies in every respect.

SUPREME PRESIDENT 2665314

Calved July 22, 1937. Tattoo L 34; R 34. Bred by Mousel Bros.; Owned by Robert Mousel, Jr., Cambridge, Nebr.

We may decide to sell this choice little gent. Though pretty young to offer, he gives much promise. Representing extractions from the most dependable and popular families. Note he is the son of Jack Frost's six thousand dollar Supreme Advance Domino. We believe he is a herd bull possibility.

You will note that Super Mischief is a double grandson of Prince Domino Mischief. Coming from Advance Mischief and Dorana 43d. You will also note that he is a full brother to Advance President, who is the sire of The Lamplighter, coming from such noted ancestors. We are anxious to try this young bull out and now that his calves are beginning to come it looks as though he is doing the job. Super Mischief is now at the head of Mousel and Coder herd at Wellfleet, Nebr., located on Medicine Creek about half way between North Platte and McCook, Nebr.

Here we have a grandson of Advance Domino and Advance Mischief. This is the combination that is doing so much in our herd today. His sire, Beau Dulcencia, now going under the name of Advance Domino M., is at the head of M. Cadwallader herd, Oxford, Nebr., while his dam, Blanche Mischief 17th is one of the Queens in Jack Frost's select group of females at Blackwell, Texas. A good reason why we are using Beau Dulcencia 1st in our herd.

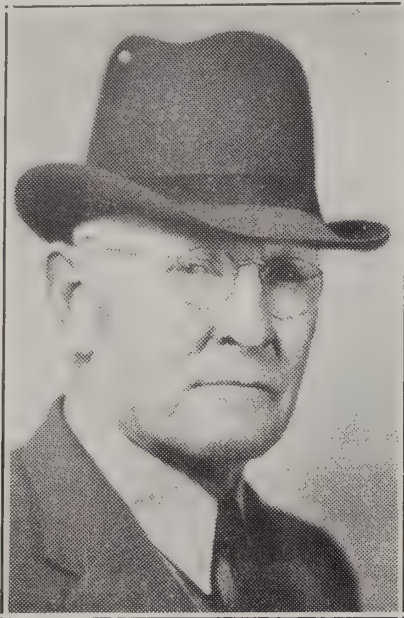

ADVANCE PRINCE DOMINO

In reserving Advance Prince Domino in our herd we had some definite things in mind. We had in mind a bull that would be extremely smooth and mellow. Strong enough constitution to put these qualities in his get and stamp breed character in his successors. He has lived up to our every expectation. The way we thought these things could be accomplished would be to concentrate the bloods of Domino and Beau Mischief in a fashionable way. His pedigree shows the formula used. He has seven full brothers and sisters that are serving the breed well today. He spent the first seven years of his life in our herd, and is now in the coming herd of Jack Frost at Blackwell, Texas. Watch what he does in this herd. His son, Future Domino, owned by Lester Thompson, Bozeman, Montana, is off to a flying start from all reports. Mr. Frost has a full brother to Future Domino in Worth Mischief and he too looks like he is capable of delivering the goods. Advance Prince Domino left us some of the best females we own and many of the outstanding calves in the sale are sired by him.

Advance Prince Domino Jr., another son, was exhibited by B. A. Elliott, Moran, Texas, to Junior Champion at the Texas State Fair, and is now in service in the Norman Martin herd, Dublin, Texas. Also President Mischief, an excellent individual and sire doing service in the I. B. Cauble herd, Big Springs, Texas, and Prince Advance Mischief, who has made a name for himself in the Ed Hutt herd, Kansas City. You have an opportunity to secure his blood in this sale. It has paid others.

MOUSEL DOMINO

In the most select reserve herd of John B. Stribling, Rotan, Texas, he chose as his senior herd sire, Mousel Domino, because he knew him and his ability to carry on the great work of preserving the useful blood lines of Anxiety 4th's breeding. To assist him he chose the one-half brother, Advanxiety, a great young bull, that he believes should carry on equally as well. As a calf, we refused to sell, and retained him for a herd bull for several reasons. Mousel Domino's individuality suited us in every respect. He has a character distinctive to himself. This bull shows and breeds breed character in his get. We were proud of his ancestors. His dam gave us Advance Mischief, Blanche Mischief 16th and Blanche Mischief 22d, who is a full sister to Mousel Domino, which cow we consider one of the top cows of the breed, past and present. The fact that Advance Mischief and Advance Domino were in their prime when Mousel Domino was maturing handicapped him from being used as liberally as he justly should have been. We are proud of everything he has left us. He spent his first nine years with us.

ROBERT D. MOUSEL

HENRY L. MOUSEL

COMMENT

Our constructive breeding operations have been a long range program, concentrating the blood of the best of the Gudgell & Simpson Anxiety 4th families until it is now quite a complete web of those great Hereford families, perserved and improved from Gudgell & Simpson foundation. The pedigree of an animal is nothing more or nothing less than an abstract of the animal's ancestors. The animal's form is the thing that is visible. Breed character is the invisible personality of relationship seen in the animal's abstract of pedigree.

At no time was it a speculative program, but instead a definite one, hoping to improve for the benefit of the Hereford breed in general and to breed cattle that would breed on for our fellow men. Not in mind to amass great wealth, but instead, hoping to build a tower of strength to the Beef breed and not just merely a fancy or a fad, and to make friends and associates in the finest fraternity in the world—the fraternity of cattlemen. And well do we realize that no one man's life is long enough to complete this great accomplishment. In the past Gudgell & Simpson made mistakes. We have made them, and so have you. Why not come to our sale May 23, 1938. If you like our cattle, buy them at your own price and have the benefit of all these years of Mousel breeding.

We are selling as good cattle as we are keeping. This catalogue gives the animal's breeding and details. The cattle speak for themselves. We are turning this sale over to you and the Auctioneers to conduct, and you are invited as our guests whether you buy or not.

ROBERT D. MOUSEL
HENRY L. MOUSEL

General Information

Each animal will be sold to the highest bidder without reserve.

The auctioneer will have charge of the selling and will have full authority to settle any disputes as to bids.

The cattle will be properly fed and cared for after the sale for a period of 24 hours free of charge to the purchaser, but at their risk of loss or injury.

Each animal will be at purchaser's risk as soon as sold, but will not be delivered until settlement has been made for same.

Terms of the sale are cash.

No animal with known defect will be offered without attention being called to same before it is offered for sale. The cattle sell at the halter and without guarantee.

The cattle have passed the tuberculosis and abortion tests and have been inspected and declared free from scabies and are ready for shipment into any state.

The pictures of the sale cattle were just recently taken, hence they have lost their winter coats and for these reasons they are not overdrawn and in most cases the cattle are much better than the photograph.

Cambridge, Nebraska is located on the main line of the Burlington Railroad, about half way between Omaha and Denver. Also about half way between Kansas City and Denver. Burlington breaks world's speed record—on October 23, 1935, a new world's record of 122 miles per hour was established on this road 20 miles east of Cambridge, Nebraska, and was made by the Burlington's new Streamlined Zephyr now in service between Chicago and Denver, as follows:

Leave Chicago 5:30 P. M., arrive McCook, Nebr., 5:38 A. M.

Leave Denver 4:00 P. M., arrive McCook, Nebr., 8:28 P. M.

McCook is 25 miles west of Cambridge. Other Burlington trains and buses stop at Cambridge.

Cambridge is also located on Nebraska U. S. Highway No. 6 from Omaha to Denver and is easily accessible from north or south.

Sale will be held at the Ranch on Medicine Creek six (6) miles northwest of Cambridge. Road will be marked from Cambridge to the Ranch.

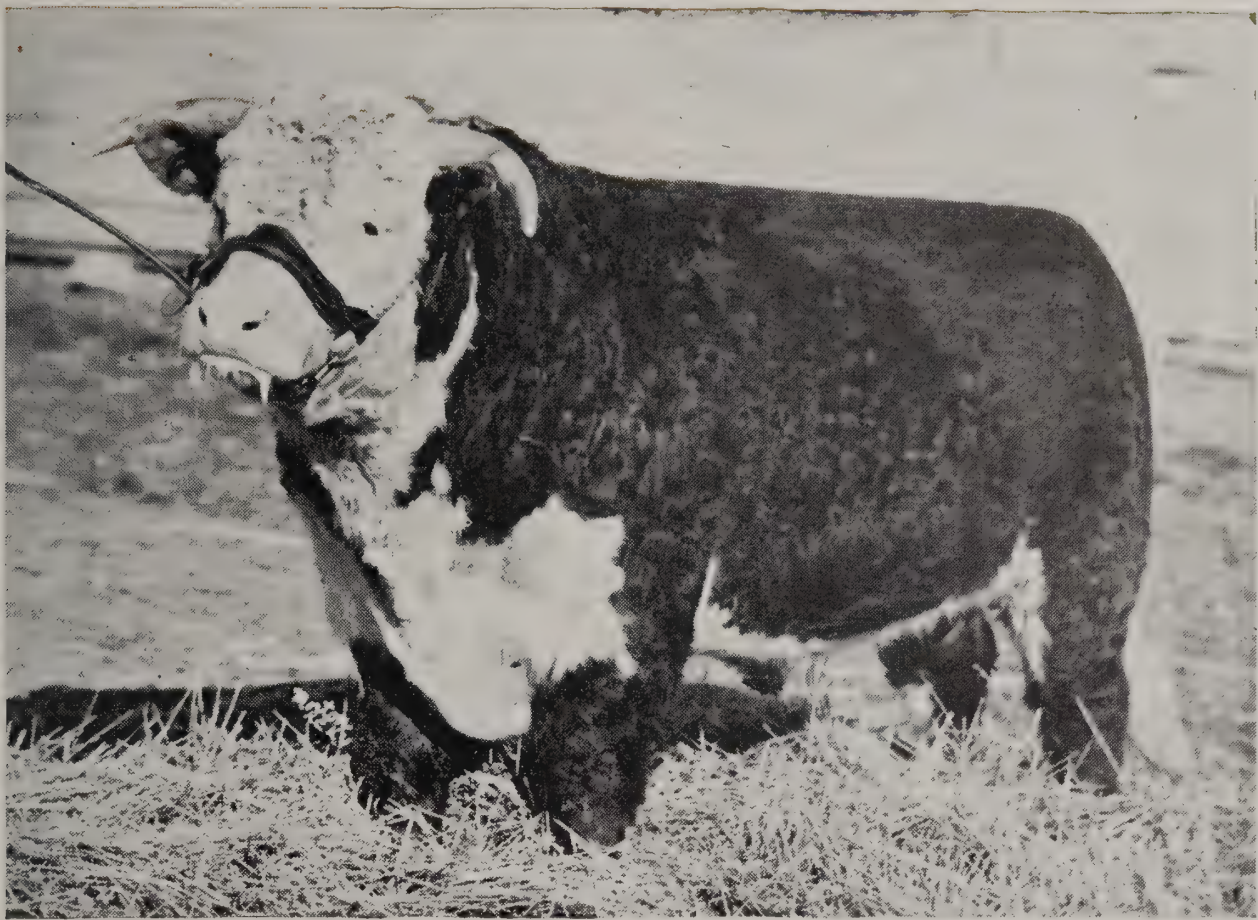

Parties arriving on the Zephyr at McCook will be met there if we are notified in advance.

We sold this bull as a calf to one of the smaller breeders whose herd was dispersed last fall, reserving this bull which we later purchased. The reason for buying him was the evidence of a good sire. The calves of both sex were good. From the fact that he is sired by The Lamplighter should warrant his possibilities from the beginning. You should note the combination of blood lines here which have proven good in every particular. This bull possesses plenty of quality, but he has not been fully grown out due to the lack of feed during the recent drouth and for these reasons he is liable to sell under his value.

Has many admirers—right he should have. He is not only one of the outstanding sons of Advance Domino, but in turn one of the outstanding young bulls of the breed. And again he has for his dam a cow that has never failed us, always producing good cattle. One of her heifer calves, a full sister to this bull, won her class at the Denver Stock Show in 1932, defeating all comers. And again she and Mischief Husker won the pair of calves class. To make the story short, we shall say that from head to heel he is a grand individual—clean cut and straight, and an extremely thick exceptionally strong back. One might juggle facts but they can never be changed to jester a master stroke by this bull. We recommend him highly.

This is a choice son of Beau Dulcenia, now used in the good herd of Cadwallader and Forbes with remarkable results. This is a bull of good confirmation, good head, straight lines, well marked and should give good service in a good herd.

This is the last son of Advance Mischief we will sell on our ranch. He is a good representative of his sons. He is very thick, heavy boned, good headed and shows evidence of growing into a large bull. You will note that his ancestors have been desirable and good producers everywhere. His dam is one of the outstanding producing cows on our ranch. Ask to see her sale day. If you want to add scale and quality you will make no mistake in buying this son of Advance Mischief.

Anyone wanting one of the most desirable herd bull prospects can find it in this youngster. He is out of one of the choice daughters of Advance Domino. She is one of the cream cows that we have retained in our herd. Individually this bull is good, possessing the ear marks of a herd sire. Sons and daughters of The Lamplighter are in great demand and are commanding good prices in some of the best sales of this and last year. This year's Stribling's top animal was a son of The Lamplighter and the second top of his sale a year ago was a daughter of The Lamplighter, selling for \$2,775. The Lamplighter adds class and finish to a get. Check up on his pedigree and pictures that have been run here for reference.

This is a very desirable young bull coming from the Blanche Mischief cow family that has produced some of the breed's greatest cattle. You will note that his dam is a daughter of Dr. Harris' The Prince Domino. We believe you can depend on this bull bringing the more desirable results. His head shows breed character. Look this bull over as space will not permit what could justly be said of him.

Another good son of Advance Prince Domino that is certainly of herd bull calibre. His dam is a wonderful cow and we are proud of all the Mousel Domino cows that we own—few will out-breed them. This calf is richly bred and should go places. He is well marked and of medium color. Don't fail to give this calf the once-over.

Many visitors of recent months fell for this calf. He is certainly of herd bull calibre. His natural pose is as if he were on dress parade. He never has a lazy moment. His sire, Dean Mischief, is in the Tom Parks & Son's herd at Clifton, Texas, and from the sign that bull made here it looks as though they have a genuine breeding bull. This calf is of light color, and he shouldn't be over-looked.

This calf has what is needed in many cattle of today. He has what it takes to improve many cattle. The quality is there. He has good legs, has a very heavy quarter, his hide is mellow and he is a clean calf all the way through. His color is light. We feel he should have these things being a Double Advance Mischief plus other great cattle that are behind him.

The Irishman says that this would be a 'ell of a country without the Irish. The writer here says that the Hereford breed would have been in a devil of a fix if it were not for Beau Mischief. This blood is needed more today than ever. He simply held individuality together. Just as soon as his blood was used, the calves got their backs up and got big chested, went out on dress parade with a soft shining uniform on, like soldiers in the front ranks. This is a genuine Beau Mischief bred calf and a mighty good herd bull prospect, whose dam is one of the finest, and a dad to match. From the reasons stated above, he should go and make good.

A good son of Junior Advance Domino that will pack lots of beef. His lines are straight, he is well marked and on the mellow order. He is of a light color. His dam is a good producing daughter of Spartan Jr.

Group of Mousel Bros. Reserve Cows.

THE NEXT SIX PAGES ARE DEVOTED TO FOUNDATION HERD COWS

DONNA ANNA 22d—For Reference Only

The immortal Donna Anna 22d came to our herd when she was 13 years old and dropped 3 calves for us. Her influence on the breed has been tremendous. She was carrying Young Anxiety 4th when we got her. In all, she dropped 14 calves, nine bulls and five heifers.

MISCHIEF MAKER 6th—For Reference Only

The greatest daughter of Beau Mischief, mated to Prince Domino, gave us Prince Domino Mischief.

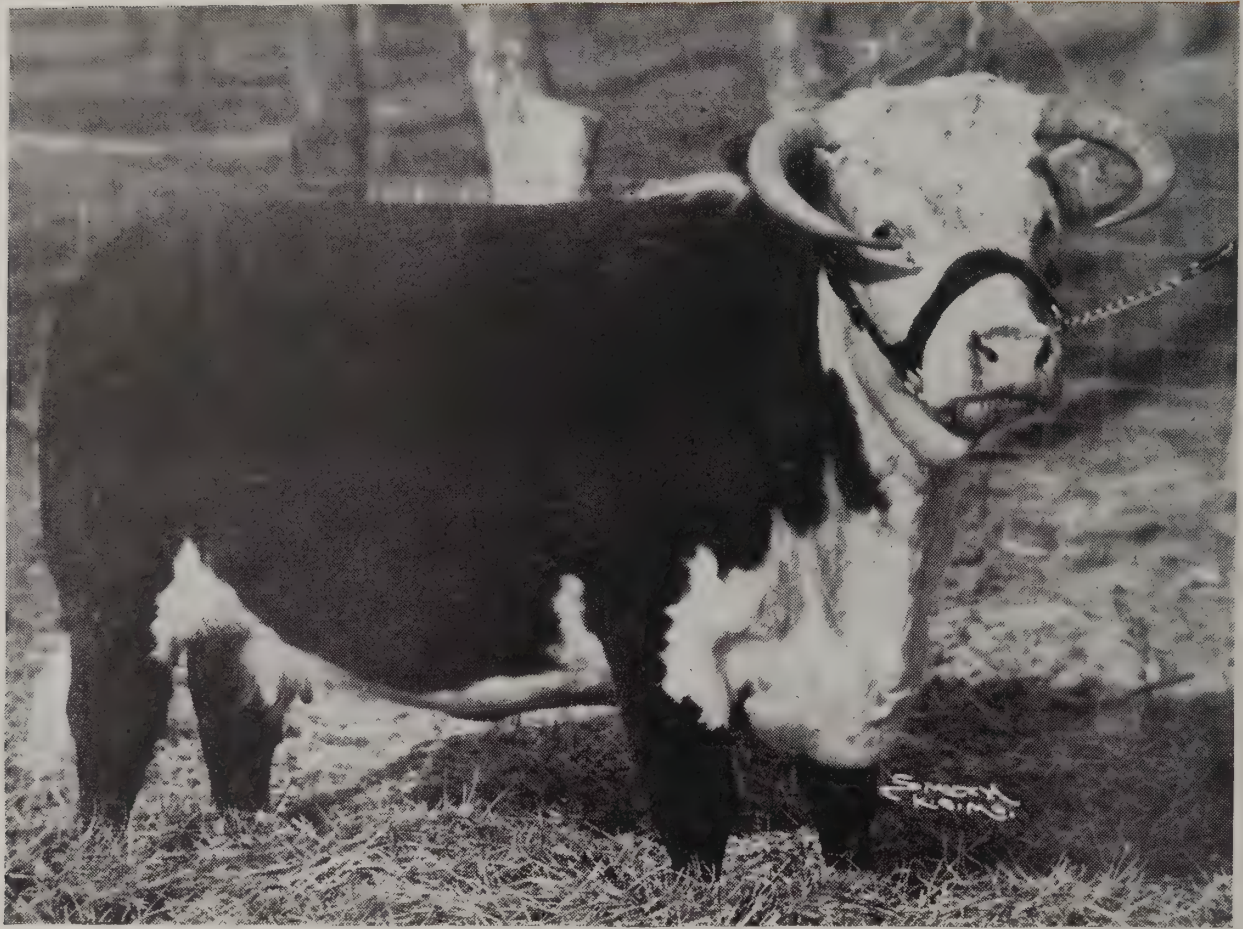

DULCIE MISCHIEF 6th—DULCIE MISCHIEF 3rd and DULCIE MISCHIEF 24th—
For Reference Only

Here is the grand old Dulcie Mischief 3d shown with her first calf, Dulcie Mischief 6th, calved in 1923, and her last calf to date, calved in 1937, Dulcie Mischief 24th.

Dulcie Mischief 3rd to our knowledge, is the only living double granddaughter of Beau Mischief. She is by Mousel Mischief and her dam by Beau Mischief. She was calved in 1920. Was in our herd until 1925, when she went to B. A. Elliott, Moran, Texas. Jack Frost, Blackwell, Texas, acquired her in 1937, where she is going strong today. We believe her produce record will go down in history. She shows more breed character than lots of our present day cattle. Her produce has gone on and done things, giving them many qualities needed today. Her produce are all extremely heavy milkers. Her 1937 calf could not handle all of her milk.

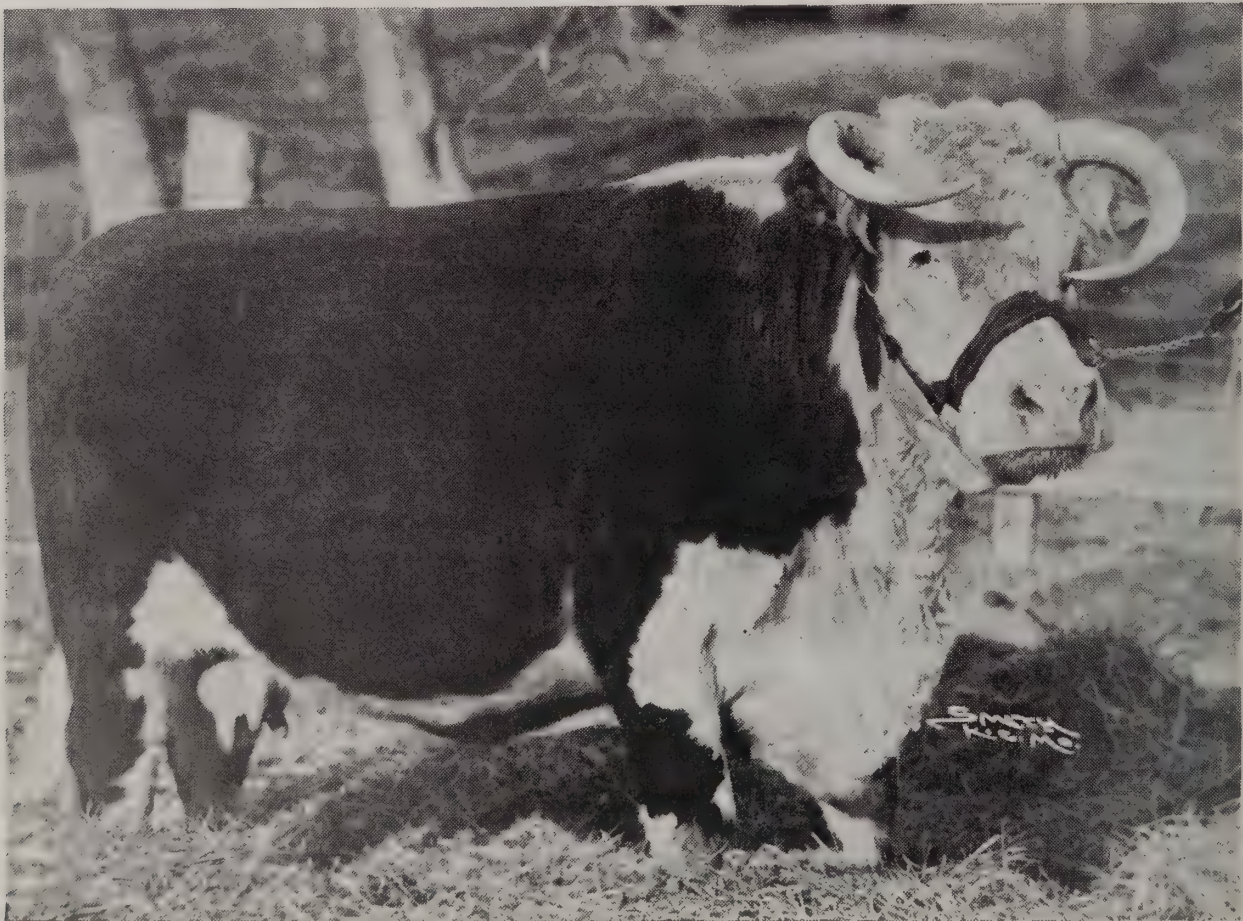

Dulcie Mischief 6th made an impressive record in our herd, giving us both herd bulls and herd cows. We have two Advance Mischief daughters in our herd today and only wish we had more of them. We also have two daughters of Dulcie Mischief 3rd in our herd that are grand individuals. Much of our herd today carries the blood of these cows.

Dulcie Mischief 24th saw the light of day when her mother was in her 17th year. This little lady stood third in the class of junior heifer calves at the 1938 Ft. Worth show. The Dulcies are long lived and have been regular producers for us. The above three fine specimens are on Jack Frost's ranch today.

BLANCHE MISCHIEF 22d—For Reference Only

One of the top cows of the breed. She is by Advance Domino, her next dam is by Young Anxiety 4th. She is a full sister to Mouse! Domino and from the same cow that gave us Advance Mischief. She produced the \$3000.00 Blanche Mischief 38th in Stribling's 1937 sale, now owned by Jack Frost. She also gave us Future Mischief Domino by Advance Mischief. She is the dam of Norman Martin's Advance Prince Domino Jr. at Dublin, Texas; we have in our herd a full sister to this bull. Next she gave us Mouse! Mixture and Future Mixture, both by Advance Mixture. Look this cow up sale day, as well as her produce.

DONNA AGNES 8th—For Reference Only

Donna Agnes 8th is by Prince Domino from Donna Agnes 7th by Mischief's Return, next dam by Beau President. This grand herd Matron spent her first 12 years in the Elliott herd at Moran, Texas, and produced many show winners as well as real breeding cattle for them. Don't fail to see this cow sale day. She carries the services of Advance Mixture.

DULCIE MISCHIEF 7th—For Reference Only
And Bull Calf by Advance Mixture

One of the great daughters of Dulcie Mischief 6th that has all the necessities for a herd matron. Her calf at side by Advance Mixture is a chip off the old block. Much could be said about this cow and we are counting on her son to carry on for us. Dulcie Mischief 7th is by Advance Mischief and is one of the many full brothers and sisters that have done well everywhere they have gone.

DULCIE MISCHIEF 16th—For Reference Only

Dulcie Mischief 16th is one of the greatest daughters of Mouse Domino. Her dam is Dulcie Mischief 9th, a full sister to Dulcie Mischief 7th, shown above. She has dropped four calves to date and her first one was Advance Mixture, one of the coming sires of the breed. John B. Stribling owns a full sister to Advance Mixture. A son, Lamplighter Jr., is owned by Stanton Brunson, Midland, Texas, and her last calf, Imperial Lamplighter, has his future cut out for him on our Ranch. This herd matron qualified in every respect for our herd building and her produce record all ready is an impressive one.

DULCIE MISCHIEF 25th—For Reference Only

One of the best daughters of The Lamplighter. Her dam is by Advance Domino and was drown in the creek soon after bringing this heifer. This is the type of a heifer we expect to drop us herd bulls. She has a wonderful head and extremely heavy quartered.

DULCIE MISCHIEF 22d—For Reference Only

Dulcie Mischief 22d is the last of 10 full brothers and sisters from Dulcie Mischief 6th, by Advance Mischief. She measures up well with her kin. She has the desired qualities and is capable of transmitting them. She is a true representative of her family and we are expecting her to be of much value to our herd.

Here is a true representative of the Blanche Mischiefs. We believe there are more herd bulls of merit that come from this cow family than any other present day cow family. There have been some cattle sold in recent years, but few of them are in a class with this one. She is as good as any female we have reserved. In animal form, she is hard to fault, and we know of no inferior animals behind her. Many pages could be written as to her individuality and ancestors. Give her close inspection and draw your own conclusions. Her mother is a full sister to Advance Mischief 4th, now owned by H. W. Loomis, Wheatland, Wyoming, who refused \$5,000 for this bull from a progressive Texas breeding establishment. This heifer sells open, giving the buyer the privilege of breeding her to any bull on our ranch.

This is a grand daughter of The Lamplighter. She has individuality galore. Her general make-up is what might be expected from a Donna Agnes. Her dam has been one of the top producing cows in our herd for several years. She has never failed us. This heifer is clean cut in every way and has the finest quality hair. This heifer does not carry the flesh as some in our offering, but this should not detract from her value. Being bred to Mousel Mixture should bring the most gratifying results.

Donna Agnes 41st bred March 29th to Mousel Mixture 2714631.

Here is a classy prospect, coming from cattle that have stood the test of time. She has not let her ancestors down a bit. She possesses breed character and individuality and she can stand close criticism. She is well grown and is developing into a thick, heavy quartered, close coupled animal. Her hair is of finest quality. She is of medium color. She carries a leg squarely under each corner. You will note that she is a double grand-daughter of Blanche Mischief 21st, a cow that gave us The Lamplighter. Her dam is a full sister to C. A. Iverson's Plus Mixture. She is good enough for any man's herd.

Here is a grand individual—clean cut in every way. Her dam is a wonderful cow. We call your attention to Elope Mischief in her pedigree because she is a cow that made history around Chadron, Nebraska. This heifer is good headed, well marked, and of a medium color.

Here is a show and breeding prospect combined. She is well grown and is developing very very satisfactorily. Individually she is hard to fault—she has breed character galore. Her carriage is to be admired. She is one of the top heifers from all of last year's crop. She should work well in a man's show herd, as well as in a breeding herd. Study her breeding closely. Note the Beau Mischief she carries through his good son, Anxiety Mischief, which bull is a full brother to Superior Mischief. Her dam is a wonderful breeding cow as well as a good individual. Rat Jowell says this heifer won't hurt anybody, and may do some of us a lot of good. Give her close inspection sale day. That way you can check up on Rat's judgement.

This heifer compares favorably with the other young heifers selling. Just give her a little time and she will start working for you.

Specimen of Heifers Calves produced on our Ranch.

G. R. "RAT" JOWELL
Hereford, Texas

G. R. JOWELL, "RAT"

HEREFORD, TEXAS

We have always considered Rat Jowell as one of the original "Brain Trusters" for Gudgell & Simpson cattle. He has uncanny remembrances of that herd. His cattle knowledge comes from experience, having followed the trail herds from Texas to Montana in his youth, and having watched the development of many herds of cattle. We have always used his advice to a good advantage. We asked him to tell of some early experiences at the Gudgell & Simpson ranch. It is here reproduced and most of you who know Rat will agree that he has said very little, as he is capable of describing most of the cattle from that herd at great length.

It has been better than forty-one years since I first visited the Gudgell & Simpson herd of Herefords.

At that time they had many Anxiety 4th cows; and Don Carlos was in the last years of his usefulness, due to a stifle. I am thankful that I had the opportunity to see him even then.

I shall never forget the great cows on the farm at that time by Anxiety 4th, also Beau Brummel and Lamplighter, in the glory as matured bulls. They were bulls one would never forget, although he might be interested in entirely other lines of endeavor.

Of course, I was not capable of an opinion of worth at that time. The same might apply now. However, I am of the same belief now that I was then, that Anxiety 4th Hereford cattle are the most practical beef cattle we have had to date.

We must concede that in many instances they have been abused through breeding by amateurs, yet the intelligent mating effected by Moussel Brothers has left them where they are today—tops in beef cattle of the entire world.

Yours truly,

G. R. JOWELL.

“Constructive Breeding”

Different talents are given to different men that equip themselves for particular success along particular lines. Fortunate is that man whose professional or business life has been laid along the path for which Nature has especially endowed him. In the Hereford breeder's business there are few men who stand as striking examples of this fact as do Henry and “Bob” Mousel. As the Scotch might put it, “it's a gift.”

Through the years that I have known the Mousel brothers as Hereford breeders, dating back to 1901, they have year after year performed practical miracles in their methods and results with Herefords. They have had their own plans, and sufficient confidence in them to follow them closely. Their own claim to be “preservers of Anxiety 4th blood” is readily acknowledged by all who have known their herd at Cambridge. They have adhered closely to the type they had in mind originally, and their success in achieving and maintaining that type has marked an epoch in the Hereford breeding industry.

The term, “constructive breeding,” in their hands has taken on a new expression, or a new meaning. They determined early upon the type they desired; they chose methods they believed would produce that type; they held through thick and thin to that method, and they produced the results desired. These results are apparent not only in their own herd, but in the performance record that Mousel-bred Herefords have established in other herds.

As “constructive breeders,” in the fullest meaning of that term, Mousel Bros., stand out wherever Herefords are known and carefully studied. Such men and such methods are worthy of emulation.

HAYES WALKER.
